THE MONEY TRAIL

European Union Financing of Organizations
Promoting Boycotts against the State of Israel

2nd Edition

January 2019

Executive Summary

1. **This report presents the Ministry of Strategic Affairs' updated research regarding financial aid granted by European Union institutions to Palestinian and European non-governmental organizations which promote boycotts against the State of Israel.** It details the funding provided by the European Union to these organizations in 2017 and multi-year funding beginning in 2018 (for which full data has still not been released by the EU). This report follows the first report by the Strategic Affairs Ministry, released in May 2018, on EU funding during the period of 2016-2017.
2. It should be noted that this report does not cover the entirety of EU funding to anti-Israel boycott organizations, but rather, focuses on the financial support to **ten NGOs active in promoting boycotts of Israel. The research presented covers direct financial aid to these organizations, regardless of the express purpose of the funding.**
3. This approach, which focuses not on the professed purpose of projects listed, but rather on the identities of the organizations receiving the funding, is in line with the findings of the European Court of Auditors report published in December 2018 (Special report no. 35/2018). In this report, **the ECA found a significant lack of transparency within the EU funding mechanisms**, and warned that the European Council does not have sufficient or adequately-detailed information on the actual use of funds transferred to NGOs. It concluded that a greater degree of transparency is required. The ECA report points to the distinct possibility that EU funds may have been used by NGOs for purposes other than for which they were intended.
4. The ECA report reinforces the Ministry of Strategic Affairs' concerns presented in the first "Money Trail" Report (from May 2018) that **EU funds are being used by organizations to promote boycotts against Israel, even if the EU funding has been granted for projects not directly related to promoting boycotts, due to insufficient oversight and information-gathering regarding the actual use of all funds.**
5. In addition, it is clear that money is fungible, and that funding transferred to seemingly legitimate causes enables BDS-promoting NGOs to channel other funds to

Ministry of Strategic Affairs
and Public Diplomacy

advance the delegitimization and boycott of the State of Israel. Furthermore, the fact that an organization which supports a boycott of Israel is a recipient of EU financial aid, even if for purposes other than boycotting Israel, grants the organization a unique status and an enhanced legitimacy which can assist it in raising funds from other entities for boycott activities. It should be noted that a considerable number of organizations assisted by EU institutions, especially Palestinian organizations, lack transparency, and publish their financial statements irregularly, if at all, thus raising questions about their use of EU funds.

6. The information underlying this report is based mainly on **data published by the EU's Financial Transparency System – FTS**, and on data released by European and Palestinian organizations which promote boycotts against the State of Israel. It should be noted that in some cases, according to the FTS, these organizations receive EU funding in the framework of larger projects carried out jointly with other NGOs. Due to a lack of data, it is not possible to determine what percentage of the grant went to each organization participating in the joint project. It should also be emphasized that as of January 2019, the FTS system does not include data regarding funding transferred in 2018. Where 2018 data is unavailable, our findings are based on data for 2017.
7. In addition to the FTS data, this report identifies data from International Cooperation and Development records of the European Commission, which detail **multiyear direct-funding transfers (apparently beginning in 2018) to Palestinian organizations Al-Haq and Al-Mezan, both of which are prominent promoters of anti-Israel boycotts**. As is well known, **Al-Haq is led by a former senior official of the EU-designated terror organization “The Popular Front for the Liberation of Palestine”**. Shawan Jabarin, Director-General of Al-Haq, served three years in prison for terrorist activities, and currently employs former PFLP activists, who were also incarcerated due to involvement in terror.
8. **Due to the lack of transparency, both in EU data and among the organizations receiving EU funds, it is difficult to determine the complete amount of funding to organizations promoting boycotts. The Ministry of Strategic Affairs estimates that the figure is well above €5 million per year.** Moreover, some of these

organizations also receive funds directly from EU member states. Therefore, there exists "twofold European funding," both from the EU and from member states.

Israel urges the European Union to immediately implement the following measures:

- 1. Stop funding of organizations promoting boycotts against the State of Israel, and stipulate that any future funding will be contingent on a commitment not to promote such boycotts. In this manner, EU funding will be brought in-line with the declared EU policy of opposition to boycotts and the delegitimization of Israel.**
- 2. Ensure full transparency regarding funds transferred to organizations promoting boycotts, as well as to all NGOs active in the Israeli-Palestinian arena. This includes full transparency regarding the division of funds granted to projects in which several NGOs participate, as well as implementing fully the recommendations in the ECA report.**
- 3. Ensure that EU funds do not reach or benefit EU-designated terrorist groups in any way, including by halting funding to NGOs with connections to terror groups.**

Multi-year Financing to Organizations Promoting Boycotts of the State of Israel²

1. Al-Haq

Overview

Al-Haq is a Ramallah-based Palestinian organization, and member of the PHROC (Palestinian Human Rights Organizations Council), established in 1979. The organization promotes boycotts against the State of Israel, and has taken action against the State of Israel in the International Criminal Court (ICC) and the United Nation Human Rights Council (UNHRC).

Examples of Al-Haq Promoting Boycotts against the State of Israel

- A. Among the actions taken by Al-Haq to promote boycotts and divestment against the State of Israel, has been its very active role in pressuring the United Nation Human Rights Council to publish a "Black List" of companies with some connection to Judea, Samaria and East Jerusalem. In November 2017, it was among the signatories of a declaration calling for the publication of such a list,³ and in November 2018, was among the signatories of a letter to the UN Commissioner of Human Rights urging the creation and publication of a database of companies involved in businesses related to Israeli communities in Judea and Samaria.⁴
- B. In 2018, Al-Haq, along with several French organizations, published a report regarding a transportation infrastructure project, urging companies involved in the project to cancel their contracts with Israel's authorities, and to declare their refusal to take part in any project directly or indirectly contributing to communities within the Judea and Samaria regions. The report also urged the French Government to take all necessary measures to prevent any participation or investment of French companies in Israeli communities within Judea and Samaria.

- C. In June 2018, Al-Haq published a statement calling for sanctions against the State of Israel.⁵
- D. In 2017, Al-Haq, alongside other French organizations, published a report titled: "The Dangerous Liaisons of French Banks with the Israeli Occupation." The report includes a call for French banks to withdraw direct or indirect financing of Israeli companies and banks which contribute to the development of the "settlements."⁶
- E. Al-Haq is a member of the PHROC,⁷ in the framework of which it signed a petition directed to the UN Secretary-General, urging the termination of all business ties with G4S, due to the company's alleged involvement with "Israeli breaches of human rights."⁸
- F. In 2015, Al-Haq was among the organizations leading the campaign against the presence of the telecommunications company "Orange" in Israel. Al-Haq and other organizations published a report titled "Orange's Dangerous Liaisons in the Occupied Palestinian Territory".

Al-Haq's Ties to Terror⁹

- A. **Shawan Jabarin, Al-Haq's** General Director since 2006,¹⁰ was a senior member of the "Popular Front for the Liberation of Palestine (PFLP)," a terror organization recognized as such by the European Union¹¹. Jabarin maintains links to operatives of the organization in Judea and Samaria. In the 1990s, he was placed in administrative detention numerous times due to his activities as a senior member of the PFLP and served three years in Israeli prison. The judge presiding over his case described Jabarin as a "Dr. Jekyll and Mr. Hyde. Some of his time is spent in conducting a human rights organization, and some as an operative in an organization which has no qualms regarding murder and attempted murder, which have no relation whatsoever to

B. Jabarin was a member of the Board of Directors of **Defence for Children International – Palestine (DCI-P)**,¹³ another Palestinian boycott-promoting organization linked to the PFLP (see Pg. 15).

C. Jabarin employs PFLP operatives who served time in Israeli jails for terror-related activities:

- **Ziyad Muhammad Shehadeh Hamedian** – Hamedian works as Al-Haq's Director of Training.¹⁴ He was held in custody in 1996 and during 2005–2007 due to terrorist activities carried out on behalf of the PFLP.
- **Zahi Abd-Al-Hadi Muhammad Jaradat** – Jaradat serves as the Director of Operations, Management and Donations, and oversees the organization's budget.¹⁵ During 1988-1992 Jaradat was held in custody numerous times due to terrorist activities carried out on behalf of the PFLP.
- **Majed Omar Daud Abbadi** – Abbadi worked for Al-Haq as its Director of Planning and Projects until 2016.¹⁶ He was arrested numerous times by Israeli security forces in the early 1990s for terrorist activities carried out on behalf of the PFLP.

Funding of Boycott Organizations, Some with Links to Terror, by the European Union in 2017

3. The Palestinian Non-Governmental Organization Network (PNGO)

Overview

PNGO is an umbrella organization of multiple Palestinian entities, some of which promote the Boycott, Divestment and Sanctions campaign against the State of Israel, including: Al-Haq, Badil and Defence for Children International- Palestine (DCI-P).²⁴

Examples of PNGO Promoting Boycotts against the State of Israel

- A. PNGO is a member of the BNC, the leading Palestinian coalition of Boycott, Divestment and Sanctions groups against the State of Israel.²⁵ The BNC leads a coalition of 29 Palestinian bodies, in which the "Palestinian Council of National and Islamic Forces (PNIF)"²⁶ plays a very prominent role. PNIF is a coordination framework of Palestinian factions (both nationalistic and religious), including terror organizations such as Hamas, Islamic Jihad and the PFLP.²⁷

EU Financing

According to the EU's Financial Transparency System (FTS) data, in 2017 PNGO received jointly with three other organizations €1,200,000 from the European Union.³⁵ We cannot ascertain the exact percentage of the grant which the PNGO received. The following screenshot was taken from the FTS website:

The screenshot displays the Financial Transparency System (FTS) interface. At the top, it features the European Commission logo and the text 'FINANCIAL TRANSPARENCY SYSTEM'. Below this, a navigation bar includes links for 'FTS', 'About', 'FAQ', 'Contact', and 'Help'. A search bar contains the following filters: 'Year 2017', 'Any Country', and 'The Palestinian Non- Governmental Organization Network'. A 'Search' button is located to the right of the search bar. Below the search bar, there are tabs for 'Summary', 'Country', 'Responsible Service', 'Program', and 'Recipients', with 'Details - 1 results' selected. An 'Export' button is also present. The search results table shows a single entry for the year 2017, titled 'PALESTINIAN CIVIL SOCIETY PLATFORMS: A VEHICLE FOR GRASSROOTS CIVIL SOCIETY DEVELOPMENT AND POLICY INFLUENCE'. The recipient is listed as 'THE PALESTINIAN NON-GOVERNMENTAL ORGANIZATION NETWORK*'. The amount is shown as '1,200,000 €', which is circled in red in the original image. The location is identified as 'Occupied Territories - Palestine'. A link below the entry reads '...and 3 other recipients'.

7. Norwegian People's Aid (NPA)

Overview

The NPA is a Norwegian organization, active both in Norway and internationally (the Middle East, Africa, Europe, Latin America, and Asia) that works in various areas including the integration of refugees into society and disarmament.

Examples of Norwegian People's Aid (NPA) Promoting Boycotts against the State of Israel

A. In November 2018, the organization signed a petition to the High Commissioner of the UN Human Rights Council, urging the creation and publication of a public and updated database of companies involved in business with Jewish communities in Judea and Samaria.⁸⁴

B. In June 2018, NPA's Board of Directors adopted the declaration stating that the Norwegian authorities should make a clear distinction in their cooperation with Israel, to ensure that they do not recognize Israel's control of "the Palestinian occupied territories." The declaration urges the Norwegian Foreign Ministry to issue directives which ensure that commerce with Israel does not benefit Israeli communities within Judea and Samaria.

Also, NPA urged municipal authorities to "contribute" by deciding not to do business with the "Occupied Territories" or to supply/receive services from them. The NPA's board of directors encouraged its local branches to be vigilant about the issue, so that as many municipalities as possible would join in the boycott, such as the municipal authorities of Trondheim and Tromsø.⁸⁵

C. In 2012 and in 2016, the NPA published special reports detailing Norwegian links to the Israeli "occupation." The 2016 report's⁸⁶ recommendations include:

- The Norwegian government should publish recommendations to Norwegian businesses on avoiding economic relations which support the Israeli

communities in Judea and Samaria, and other so-called breaches of international law and human rights in the "Palestinian Occupied Territories."

- The Ethics Committee should recommend to the Government Pension Fund to withdraw its investment from 13 companies and banks involved in the "occupation."
- Norwegian municipalities should withdraw their investments and pension funds from these 13 companies and banks.
- The Norwegian Government should promote legislation forbidding Norwegian citizens and organizations to supply any economic support to Israeli communities in Judea and Samaria.
- A recommendation to private individuals to avoid buying products produced in the "Palestinian Occupied Territories."

D. In October 2014, the NPA published an update, following SodaStream's announcement that it intended to close its plant in Mishor Adumim. The NPA indicates that it was one of 22 organizations to demand that SodaStream quit the "occupied territories." The campaign urged Norwegian retailers and consumers to avoid buying and selling SodaStream products until the company complied with this demand.⁸⁷

E. In September 2014, the NPA published a policy paper regarding Israel.⁸⁸ The organization asserted that it does not call for a total boycott of Israel, but calls to take steps against companies, institutions, and organizations, allegedly contributing to "breaches of human rights and the international law." The organization declared that it is working to ensure that Norwegian local authorities, companies, institutions and organizations do not contribute to the "Israeli Occupation" by maintaining economic relations that support the "Occupation." Also, the paper declared that companies and importers should put an end to any commercial relations with companies operating in the Israeli communities in Judea and Samaria, or contributing to breaches "in the Palestinian occupied territories."

Ministry of Strategic Affairs
and Public Diplomacy

In addition, the NPA encourages investors to exclude companies contributing to alleged breaches of international law and human rights associated with the Israeli "occupation" of Palestinian territories. The NPA encourages the Norwegian Government and the Norwegian military-industrial complex to freeze any military cooperation or arms deals with Israel.

- F. In 2012, the NPA partnered with more than twenty other organizations to prepare a report focusing on the manner in which Europe is "assisting the illegal" Israeli communities in Judea and Samaria.⁸⁹ Among the recommendations in the report are: a boycott on products imported from the Israeli communities in Judea and Samaria; encouraging companies to avoid doing business with Israeli communities in Judea and Samaria or invest in them; excluding the Jewish settlements in Judea and Samaria from bilateral agreements and cooperation mechanisms; publish instructions for European travel agents on how to avoid assisting businesses in the Jewish settlements in Judea and Samaria, including hotels, archeological sites and transportation companies; warning people against buying properties in Israeli communities in the Judea and Samaria regions.

NPA's Ties to Terror⁹⁰

In April 2018, the American authorities announced that the NPA, a recipient of American funds for many years, was fined \$2 million following an investigation according to which during the period 2012-2016, NPA transferred money to projects for youth (15 – 28 years of age) aimed at helping them participate in the political process in the Gaza Strip. It was revealed that Hamas, PFLP, and Democratic Front for the Liberation of Palestine operatives (all deemed terrorist organizations by the United States) were involved in the project. It was also found out that the NPA provided, in 2001-2008, various energy services in Iran.⁹¹

EU Financing

According to the EU's Financial Transparency System – FTS data, in 2017 the NPA received from the EU a grant of 2,300,000 Euro.⁹² We cannot ascertain whether these specific funds directly assisted the organization's work to promote boycotts of Israel. However, the ECA report mentioned above reinforces the concern that **EU funds contribute to these organizations' activities to promote boycotts, even if the official projects for which the funds were received are not directly linked to boycott-related activities.** Moreover, support for allegedly-legitimate purposes enables the organizations to **channel other funds** to activities promoting the delegitimization and boycotts of Israel. Furthermore, the receipt by a boycott-promoting organization of funds from the EU, even if not intended to promote boycotts, **grants it special status and legitimacy, which assists it in raising funds from other sources.**

official projects for which the funds were received are not directly linked to boycott-related activities. Moreover, support for allegedly-legitimate purposes enables the organizations to **channel other funds** to activities promoting the delegitimization and boycotts of Israel. Furthermore, the receipt by a boycott-promoting organization of funds from the EU, even if not intended to promote boycotts, **grants it special status and legitimacy, which assists it in raising funds from other sources.**
